Find out minimum 5 bugs in any application?

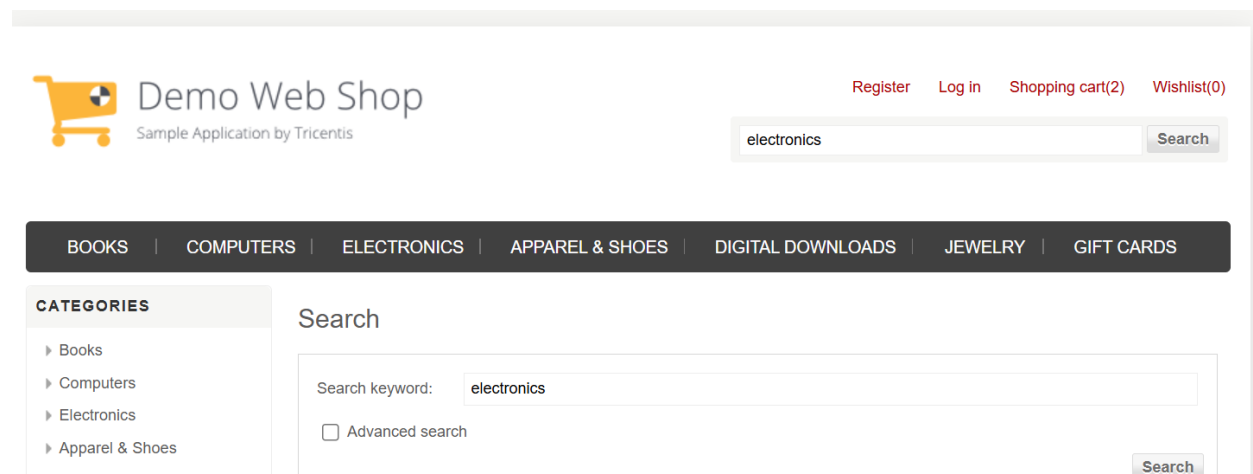

ApplicationLink: <https://demowebshop.tricentis.com/>

About: [Demo Web Shop](#) is an e-commerce web application where users can register, log in, search products, add items to cart, maintain wishlists, and place orders online.

Bugs:

- No Password Strength Indicator on Registration Page
- Invalid Search Results – Searching for "Shoes" displays unrelated products such as desktops and computers.
- Shopping Cart Not Updated After Adding Product – Product is added successfully, but the cart count/contents do not refresh immediately.
- Product Filter Not Working Properly – Applying category or price filters does not change the displayed products.
- No Search Auto-Suggestions While Typing Product Names.
